

github/spec-kit

Source: <https://github.com/github/spec-kit/releases>

v0.0.95 | 2026-02-12T18:32:33Z | release

Link: <https://github.com/github/spec-kit/releases/tag/v0.0.95>

This is the latest set of releases that you can use with your agent of choice. We recommend using the Specify CLI to scaffold your projects, however you can download these independently and manage them yourself.

Changelog

- Feat: add a new agent: Google Anti Gravity (#1220)

v0.0.85 | 2025-11-15T00:40:37Z | release

Link: <https://github.com/github/spec-kit/releases/tag/v0.0.85>

This is the latest set of releases that you can use with your agent of choice. We recommend using the Specify CLI to scaffold your projects, however you can download these independently and manage them yourself.

Changelog

- Merge pull request #1039 from sgillis/fix-cdpath-issue
- Unset CDPATH while getting SCRIPT_DIR

v0.0.75 | 2025-10-21T22:29:40Z | release

Link: <https://github.com/github/spec-kit/releases/tag/v0.0.75>

This is the latest set of releases that you can use with your agent of choice. We recommend using the Specify CLI to scaffold your projects, however you can download these independently and manage them yourself.

v0.0.65 | 2025-10-15T17:52:05Z | release

Link: <https://github.com/github/spec-kit/releases/tag/v0.0.65>

This is the latest set of releases that you can use with your agent of choice. We recommend using the Specify CLI to scaffold your projects, however you can download these independently and manage them yourself.

v0.0.55 | 2025-10-01T00:05:39Z | release

Link: <https://github.com/github/spec-kit/releases/tag/v0.0.55>
